

Play as you Go!

We are sorry but our usual play places and things to do can't be available at the moment. Instead here are some fun things to try as you go round the museum. Can you do all of them?

Can you find 5 things in the museum beginning with **C?**

Eye Spy ...?

Can you find all 8?

Something Shiny? **SOMETHING TALL?**

SOMETHING HEAVY? Something small?

Something on wheels? Something with 4 legs?

Something to wear on your head?

Something that could make noise?

GUESS WHO I AM?
I live in the museum
I am sitting in a chair
I have a pearl necklace
My dress is green with flowers in the centre

Try this guessing game

You will need a partner. Stand together near one of the glass cases. Now ask the person with you to close their eyes. Without saying exactly what it is, describe something you can see in the glass case. When you have finished ask your partner to open their eyes. Can they find what you were describing? Was it easy? Now swap and close your eyes while they describe something. When you open your eyes can you find what it is? Both try again and see if you can include good details to make it easier for each other.

HOW MANY ANIMALS?

- How many different kinds of animals can you find in the museum? There are lots if you hunt carefully. Can you find 10? More than 10?
